Cell and Tissue Research

This journal was founded in 1924 as the Zeitschrift für Zellen- und Gewebelehre, from Vol. 2 (1925) it was published with the subtitle: Continuation of the Schultze-Waldeyer-Hertwig Archiv für mikroskopische Anatomie. Zeitschrift für Zellforschung und mikroskopische Anatomie (Vols. 1–20) (1934) as: Zeitschrift für wissenschaftliche Biologie (Abteilung B) edited by *R. Goldschmidt, W. von Möllendorff, H. Bauer, J. Seiler.* Vols. 2–28 (1938) edited by *R. Goldschmidt* and *W. von Möllendorff.* Vols. 29–33 (1944) as: Zeitschrift für Zellforschung und mikroskopische Anatomie, Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie, edited by *W. von Möllendorff* and *J. Seiler,* from Vol. 34 without the subtitle, Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie. From Vol. 36 (1951) edited by *W. Bargmann, J. Seiler;* from Vol. 53 (1960) edited by *W. Bargmann, B. Scharrer, J. Seiler;* from Vol. 83 (1967) edited by *W. Bargmann, D.S. Farner, A. Oksche, B. Scharrer, J. Seiler;* from Vol. 125 (1972) edited by *W. Bargmann, D.S. Farner, F. Knowles, A. Oksche, B. Scharrer.* Beginning with Vol. 125 (1972) with the subtitle Cell and Tissue Research and beginning with Vol. 148 (1974) under the title Cell and Tissue Research and the subtitle Continuation of Zeitschrift für Zellforschung und mikroskopische Anatomie. Beginning with Vol. 164 (1975) edited by *W. Bargmann, D.S. Farner, B. Lofts, A. Oksche, B. Scharrer.* Beginning with Vol. 166 (1976) in cooperation with: *A. Björklund, G.v. Ehrenstein, J. Flament-Durand, T. Hökfelt, L. Vollrath.*

Published: Vols. 34–35 (1948–1950) Springer, Wien, from Vol. 36 Springer, Berlin.

The exclusive copyright for all languages and countries, including the right for photomechanical and any other reproductions, also in microform, is transferred to the publisher.

The use of registered names, trademarks, etc. in this publication does not imply, even in the absence of a specific statement, that such names are exempt from the relevant protective laws and regulations and therefore free for general use.

Preliminary Announcement

Normal Structure and Neuropathology of the Cutaneus Nerves

Organized by: Österreichische Dermatologische Gesellschaft
Arbeitsgemeinschaft für Neurobiologie
Österreichische Gesellschaft für Elektronenmikroskopie.

Preliminary date: 29. and 30. April 1977

Local Committee:

Prof. Dr. Gustav Niebauer
Vorstand II. Universitäts-Hautklinik
Alserstraße 4
A-1090 Wien

Doz. Dr. Gustav Lassmann
Neurologisches Institut der Universität Wien
Schwarzspanierstraße 17
A-1090 Wien

Prof. Dr. Leopold Stockinger
Institut für Mikromorphologie
und Elektronenmikroskopie
Schwarzspanierstraße 17
A-1090 Wien

Instructions to Authors

1. Manuscripts should be submitted in duplicate, typed double-spaced with wide margins and on one side of the paper only. They should be carefully prepared in the style of this journal and checked before being submitted. Typing errors should be corrected legibly.

The material should be arranged under the following headings: Introduction, Material and Methods, Results, Discussion, and References. The text should be concise and consistent as to spelling, abbreviations, etc. Pages should be consecutively numbered. The desired position of figures and tables should be marked in the margin. Changes in the proofs should be kept to a minimum; a charge will be made for changes introduced after the manuscript has been set in type.

Papers must be written in English, thus ensuring the widest possible readership. Authors not wholly familiar with English usage are advised to seek the help of an English-speaking colleague. Editorial assistance with the language is available when needed. However, correct style is the responsibility of the author(s).

Manuscripts which have been heavily corrected by the copy editor will be returned to the author for retyping.

Brief accounts of particularly interesting results will be printed out of turn as "Short Communications". They should not exceed 2 or at the most 3 printed pages, including a table or figure, should this be necessary. The Editors reserve the right to decide what constitutes a "Short Communication".

2. Each paper should be preceded by a **brief summary** of not more than 200 words. Authors may append a German or French summary to their manuscript if they wish.

3. Key words. Immediately following the summary not more than 5 English key words should be supplied for subject indexing. Key words should be taken from the Index Medicus (Medical Subject Headings) or, failing this, composed on the same principles.

4. On the first page of the manuscript the author(s) should furnish the following information: Title, Author(s)' name(s), Department, Running head (condensed title), not to exceed 72 letters including spaces, and Address to which proofs should be sent.

5. Dedications and short acknowledgements to persons and organizations should be inserted as footnotes on the first page. Footnotes which do not belong to the head of the article should be numbered consecutively.

6. Small print. Text of secondary importance, including Material and Methods, should appear in small print and must be marked as such.

7. Literature references. In the text, names of authors should be followed by the year of publication. Where there are more than two authors, only the first is named, followed by "et al." All papers mentioned in the text, and only these, should be cited in the bibliography.

The **bibliography,** to be placed at the end of the paper, should be in **alphabetical order.** Several publications by the same author or group of authors should be listed in chronological order; those that appear in the same year should be distinguished by the suffixes a, b, c, etc.

In the bibliography the following information should be provided for **journal articles:** names and initials of all authors, complete title of paper, name of journal (abbreviated in accordance with World Medical Periodicals), number of volume, first and last pages, and year of publication.

Books are cited by listing the authors' names, full title, edition, place of publication, publisher and year.

Samples:

Boquist, L.: Occurrence of oxyphil cells in suppressed parathyroid glands. Cell Tiss. Res. **163**, 465–470 (1975)

Deane, H.W.: The anatomy, chemistry, and physiology of adrenocortical tissue. In: Handbuch der experimentellen Pharmakologie, Bd. XIV/1. (O. Eichler and A. Farah, eds.) Berlin-Göttingen-Heidelberg: Springer 1962

8. Figures. The number and size of the illustrations must be kept to the minimum required for clarification of the text. Previously published figures cannot be accepted. Explanations of figures furnished as legends should not be repeated in the text. Numerical data given in graphs or tables must not duplicate each other. As a rule, requests for colour reproductions cannot be approved unless the authors bear the costs. The journal is not subsidized in any way. Therefore, when papers have **an excessive number of illustrations** (even though the Editors agree that they are essential) it is necessary to ask the author, or his (her) institution, to make a contribution toward the cost of reproduction.

The lettering, including figure numbers, of electron micrographs, with Letraset (instant lettering) is recommended. All figures, whether photographs, graphs or diagrams, should be numbered consecutively throughout and submitted on separate sheets. Any parts of a figure which demand particular care during reproduction should be indicated on a transparent overlay with a soft pencil.

Halftone illustrations, in the final size desired, should be submitted in economically arranged layouts not to exceed the size of the printed page (122 × 195 mm). Individual areas (figures) should be separated by spaces of no more than 1 mm. They should be mounted on *thin* cardboard or heavy paper. Unmounted figures are acceptable when they are not part of a layout.

Line drawings. Please submit good-quality glossy prints in the desired final size. The inscriptions should be clearly legible. Letters 2 mm high are recommended.

Half-Tone illustrations. Please submit well-contrasted photographic prints, trimmed at right angles and in the desired final size. Inscriptions should be about 3 mm high.

9. Captions. Each figure should be clearly described but in a tight kind of wording. However, remarks like: "For explanation, see text" should be avoided. Captions are a part of the text and should be appended to it.

10. Tables should be numbered consecutively in arabic numerals. They should be typed on separate sheets.

11. Mailing. Manuscripts and illustrations should be well packed in order to avoid damage in transit.
